#### Retails laundry –

Retail laundries can be dry cleaners, wet cleaners, laundromats, etc. A retail laundry may cater to a variety of consumer demands. People frequently visit commercial laundries because they have garments that can only be dry cleaned or that require particular treatment that is not accessible at home.

They may also require expert assistance due to persistent staining. Of course, commercial laundries are also an option for customers who do not have a washing machine at home for a variety of reasons.
